★★★★★ A great home security camera with facial recognition
By [Jonathan Strawn](#) on October 19, 2018
[Vine Customer Review of Free Product](#) ([What's this?](#))

Works wonderfully, with an easy to use app for your phone. The facial recognition is pretty good, and learns over time. Sound is decent, and can identify things like home alarms and other notifications such as that. Facial recognition can be fooled by false identifications of toys and pictures.
